Boriana Roydeva PHOTOGRAPHY

welcome

Hi! I'm Boriana and I'm glad you're here.

I'm a professional photographer based in Brisbane, specialising in Newborn and Maternity Photography.
My journey with photography began when I had my first child and I fell in love with creating beautiful images that capture connections and precious moments. I took the leap and left my Business Administration Degree behind in order to become a full time photographer, and haven't looked back since.

My mission is to create a beautiful and meaningful gallery with images for you.
Through this memorable experience, you will receive timeless images that you will cherish forever.

The ideal time for a newborn session is 5 to 10 days after birth. This is the time when babies are the most flexible and likely to curl up in "womb-like" poses, and they stay asleep longer.

The best time to schedule newborn sessions is a week after the mother's due date. There is always room on my schedule to make adjustments as needed because as we all know, babies will arrive in their own time.

The newborn sessions take place in my home studio which is located in Carindale. In the studio you will find professional equipment and a great variety of props and accessories to choose from.

Thank you for showing interest in my photography services. I look forward to working with you and your family in the future!

Yours,
Boriana
